THE STATE CANVASS. Governor Porter bas just completed liberal in purse, in opinion, in frierdeverywhere been received with enthusiasm. The war that has been made upon him by the three candidates who
have been hounding at his heels has
aroused the enthusiasm of the Democratic press. The canvass is quickening
in overy part of the State. As to Governor Porter's election there can be no doubt, and there is no reason why he should not receive the same vote cast for Tilden. The relentless war made upon him by the Radicals and Independents should serve only as a louder call for Democrate to rally to his support. This they will do. The tone of the Democratic press indicates the determination of the party in other portions of the State. Why should Shelby county be factious? Why should she lose her influence with the party by trescherously voting against the party and reliable journal, dated the twentynominee and for an Independent? The very character of the elements opposing Governor Porter should in- firsting at its mast-head. Every Demospire every true Democrat with an honest, genulue earnesiness for the party nomines opposed and assailed by two Governor Porter, with one exception. Radicals and an Independent. If there is a Democrat in Shelby county favoring the election of Thomas, we tell him that he is throwing his vote away, and Tae Reduction in the Cotton Cropthus repudiates party organization, and is alding in depriving the Shelby Democracy of any i fluence in the party coupells, for the D-mocracy of Tenness e would have no respect for the opinions of those Democrats who desert the nominee for governor on a mere question of policy. Democrats of Shelby. let us join our party friends in every other part of the State, and prove loyal to the Democratic party by cordially supporting its chosen standard-bearers. The candidacy of Direcy B. Thomas is a mak ry and a farce. In this contest between the two great parties he will share the fate of all go betweens. He has raised his puny arm against the organization of his party. Nothing but the suggestion of an inordinate vanity or disappointed ambition prompts his felly, and the result of the election will teach him that the fancied wrongs of petty aspirants cannot interfere with the success and organization of the great Democratic party of Tennessee. We have no fears of the election of Governor Porter by an overwh Iming majority. Our ambition is to see the Damocracy of Shelby county true to the pledgee it made in the convention that nominated Governor Porter-a pledge that they would stand by the nominee. If Shelby proves recreant in this struggle, she will be shorn of all herstrength in future conventions, for the will be taunted with treachery and her councils sourned. From every other part of the State, from the mountain tops of East Tennesses to the western | and prosperous. borders, in every city, town, county and civil district, the Democracy are rally-

THE DEMOCRATIC NOMINEES.
The Democratic nominees for the legislature will commence the canvass on to-merrow. We trust they will be met at all their appointments by the people. It is hoped the neminees, in all their speeches and intercourse, will warn the Democracy of the tural districts of the danger of inactivity.

RIO GRANDE CITY, September 24.—Yesterday General Alexander, commanding this post, having received the necessity and thorisy from General Revaeltas, of the Mexican government forces, proceeded to Camsroo with a detachmen of infantry to arrest a man who had murdered a soldler here less spring. This man had previously been confined in Jail hore, but had succeeded in making his escape and was now living in Camargo. The elizens resisted the demand and refused to take any action in the matter. General Alexander then informed them that if they did not produce the murderer by noon to day he would occupy the town and take steps to make the murder by noon to day he would occupy the town and take steps to make the murder course, will warn the Democracy of the carrying this plan into execution, should the resistance of uninee. W Blanton. He is one of the old school Mississippi planters: o disgusted with the late conventions in this city as to refuse a nomination, he came to this place a poor boy, and by economy, energy and a strict attention to business, has accumulated a fortune and is now erjoying it in his declining years. To-day (Monday) I visited the plantation of Jones & Thorn ton, two energetic colored men. I found Jones at home; he informed me that they rented the plantation in 1872 for five years, paying eighteen bales of co-ton earn year for the use of the place. Their juint capital was only two hundred dollars when they comme oed business. The first year they purchased nine mules, wagors, farming implements and supplies on time. Being in debt at the start, they were labority under many disadvantages. They have employed twenty two hands this he came to this place a poor boy, and by ec we cannot see how any decent Demoerat can permit the use of his name on the Independent ticket which in due time will be announced. The Demccratic nominees are certainly superior to any mongrel ticket which can possibly be presented; then let the Democrats were laboring under many disadvantages. They have employed twenty-two hands this sesson, and will make about sixty bales of cotton, have hundred before corn, two hundred gallous of melasses and plenty of meet to run them next season squad of sore-heads can in their dark lantern meetings concoct schemes that He states that his cotton will pay all his debts. They will have all their corn, bacon, el hi young mules, wagons, and all tarming implements, in all worth about forty five hundred dollars. This is net profit. During the last dive years they have lost fourieen h ad of mules and houses, worth an average price of one hundred and twenty five dollars each. The reason of my writing the particulars of these two energetic colored men, is to show the colored men can do in Mississippi by industry, economy, attention to business, so as to get the confidence of their white neigh bors and voting the Donocratic ticket with hem. Let other colored men emulate their example, and all will be well in the south. There was good feeling existing between the whites and negroes previous to Colonel Walton making his bloodyshirt speeches through the country. Since then some of the nearoes seem allem, and refuse trees, each de states that his cotton will pay all his del will defeat the will of the Democratic party as it has been overwhelmingly expresend in the convention which nomi nated our standard-bearers. Pending the canvass which commences

to-morrow, the organisation of he party in Shelby county should be orystalized. Let us watch every movement of the enemy, and by our unity and determination on the day of elecanything to do with the fall elections. The Radical speakers are using every means in their power to bring on a fight between the whites and blacks. An old plauter informed me that he was at Hernando one week ago last Monday, and it is his opinion that the lauguage used by Coronel Walton in his speech caused the negroes to make the attack upon the whites, and the first shot was fired by a negro standing not three feet from him. His description of the Hernando effair was about the same as published in the APPEAL at the time. The cot on crop in this section will be about one-firth less than last season, and corn about one-firth less than last season, and corn about one-firth less than last season. The long spell of dry weather in July and the wet weather in August caused the falling off in both crops. I visited the Lewishurg Democratic club. W. S. Burton, vice-president, presided. Dr. J. W. Lide is secretary. The club has eighty members, who are usually prompt at roll-call. There were sone excellent speeches made by the officers and members of the club. Lack of space will not permit me to give a synopsis of them. The addresses of W. S. Burton and General H. Rutland contained good advice to the club, and they would do well to listen to their warning voice.

Gentlemen—I have, during the past season, had in successful operation the "C. C. C.", purchased of you. I am greatly pleased with it, and consider it an absolutely indispensable machine in every gin-house. All its claims have been fully sustained, and I think you have not, in the least, exaggerated its merits. It certainly takes all the dust and dirt out of cotton, leaving it in a beautifur condition for the work of the gins. Its most apparent benefit is, of course, upon the lower grades, but I believe it will very much enhance the quality of all cotton—the first as well as the last pickings. You's truly.
